Domestic & export supply

A trusted name in packaging

Taçpack Packaging is a packaging manufacturer and supplier serving customers in Turkey and abroad. With corrugated boxes, offset printed cartons, paper and plastic edge protectors, barcode and thermal labels, packing tapes and oil bottles, we serve food, fresh produce, industry, cosmetics, chemicals, textiles and more.

We don't just make boxes. We design the right packaging with you — packaging that protects your product from the production line to the end user, makes your brand stand out on the shelf and lowers your logistics costs. Our raw materials come from FSC®-certified, responsible sources.

OUR VISION

To be a brand that makes a difference as Turkey's leading packaging solutions provider, delivering quality, reliable and sustainable packaging to companies in every industry.

OUR MISSION

- Ensure the highest level of safety and protection for our customers' products.
- Deliver durable, attractive packaging with premium raw materials and advanced production.
- Contribute to a sustainable future through environmentally conscious production.
- Offer the best-fit solution with our expert team and wide product range.

OUR VALUES

Quality — The same high standard on every order.

Reliability — Transparent, honest and true to our word.

Customer focus — We listen first, then recommend the right product.

Sustainability — FSC®-certified, recyclable packaging.

Innovation — We closely follow developments in the industry.

Teamwork — A strong team spirit for shared goals.

Corrugated Packaging

Strong corrugated board packaging for shipping and storage.

Standard

Regular Slotted Carton (A Box)

Made from corrugated board, the regular slotted carton (FEFCO 0201) is the most widely used shipping box. It offers high stacking strength for its weight and ships flat, saving space in storage and transport. Available in single wall (E, B, C) and double wall (EB, BC) grades to suit your product weight.

Box style	FEFCO 0201
Flute	E, B, C, EB, BC
Liner	Kraft / Test / White
Print	Plain or 1-4 colour flexo

Standard

Produce Tray Box

Designed for fresh produce, these tray boxes let the product breathe through ventilation holes, prevent bruising and extend shelf life. Available as machine-erected, hand-erected and corner-post models, suitable for export and domestic shipments.

Models	Machine-erected, hand-erected, corner post
Use	Fresh produce, export
Option	Moisture-resistant liners

Standard

Poultry Box

The poultry box is an open-top corrugated crate used to ship whole chickens, cut portions and turkey from the processing plant to the store. It is made from food-contact paper; its moisture-resistant structure keeps its shape in the cold chain, while ventilation holes help the product cool quickly. Micro double-wall (EB) and double-wall options deliver high stacking strength. Available as machine-erected, hand-erected and corner-post models, plain or printed with your brand.

Models	Machine-erected, hand-erected, corner post
Flute	B, C, EB (micro double-wall), BC
Paper	Food-contact, moisture-resistant
Use	Whole chicken, cut portions, turkey
Print	Plain or 1-4 colour flexo

Custom made

Die-Cut Box

When a standard carton isn't enough, we produce die-cut boxes that fit your product exactly. Handles, windows, crash-lock bottoms or multi-compartment designs are possible for shipping, display, gift and e-commerce packaging.

Production	Die-cutting
Design	Custom size and structure
Use	E-commerce, promotion, retail

Corrugated Packaging

Custom made

Pallet Top Cap

A pallet cap protects the top surface of a palletised load against dust, moisture and strapping pressure, unitising the load and improving stacking safety. Produced as a flat sheet or a flanged cap to fit your pallet size.

Size	To pallet size (e.g. 80×120, 100×120 cm)
Form	Flat sheet or flanged cap

Standard

Pizza Box

Made from micro-flute (E/F) corrugated board, our pizza boxes retain heat, balance steam and keep their shape during delivery. Available in various diameters, plain or printed, for restaurants and delivery businesses.

Sizes	22, 26, 30, 33, 36, 40 cm and custom
Flute	E / micro-flute
Print	Plain, flexo or offset

Custom made

Cell Trays

Cell trays hold fruit, eggs, cosmetics and glass products firmly in place and prevent them from knocking into each other in transit. Designed to your product dimensions, they significantly reduce damage rates.

Use	Fruit, glass, cosmetics, food
Design	Cell layout to product size

Custom made

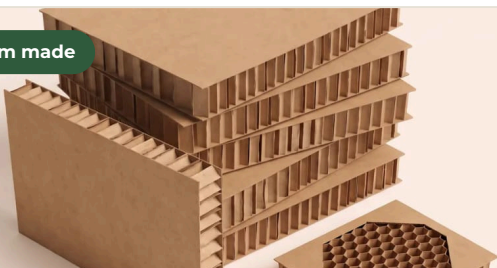

Partitions / Dividers

Partitions divide the box into cells sized to your product, protecting glass bottles, jars and cosmetics from impact. Products are easy to insert and remove, and can be displayed on the shelf with the insert.

Use	Glass bottles, jars, cosmetics
Cells	4, 6, 12, 24 and custom

Corrugated Packaging

Custom made

Honeycomb Separator

A honeycomb separator is a lightweight, high-strength panel made of a hexagonal honeycomb paper core between two kraft paper faces. It separates product layers on pallets and inside cartons, absorbs impact and keeps products from touching each other. It is used in shipments of glass, ceramics, automotive parts, white goods and furniture. Being 100% recyclable, it is an eco-friendly alternative to plastic and EPS dividers.

Structure	Kraft faces + honeycomb paper core
Thickness	Set according to product and load
Size	Cut to required size
Use	Between pallet layers, in-box separation

CUSTOM MADE

Offset Printed Packaging

Photo-quality printed packaging that stands out on the shelf.

Custom made

Offset Printed Shipping Box

Offset printed slotted cartons combine standard-box economics with photo-quality print. Ideal for series products where brand visibility matters; lamination, varnish and film options give a premium look on shelf and in shipment.

Print	CMYK + Pantone offset
Finish	Gloss/matt lamination, varnish
Flute	E, B, EB

Custom made

Fast Food Packaging

We produce burger boxes, fry boxes, wrap boxes and carry packs for fast food, takeaway and grocery chains. Food-safe board, grease-resistant inner surfaces and brand-specific print deliver both hygiene and visibility.

Items	Burger, fries, wrap, meal boxes
Material	Food-safe board / micro-flute

Offset Printed Packaging

Custom made

Offset Printed Produce Tray

Offset printed trays put your brand at the forefront in export and supermarket supply. Ventilation holes, corner posts and stacking locks deliver a strong structure, with high-resolution print on every surface.

Models	Machine-erected, hand-erected, corner post
Print	CMYK offset, lamination

Custom made

Custom Offset Printed Box

Designed with shape, cut and print specific to your product and brand identity, these boxes strengthen your brand from the e-commerce unboxing moment to the store shelf. We support you from structural and graphic design to series production.

Use	E-commerce, gift, promotion, retail
Finish	Lamination, varnish, embossing, foil (optional)

Custom made

Turkish Delight Box

Turkish delight boxes show the product through a clear window while offset print puts your brand forward on the shelf and as a gift. They are made from white-lined micro-flute board, thin yet resistant to crushing in transit. Acetate window, matt or gloss lamination, varnish and foil options let us design each box around your brand. Produced in sizes by weight for Turkish delight, hard candy, dried fruit, dates and chocolate.

Material	White-lined micro-flute (E/F flute)
Window	With or without acetate window
Print	CMYK + Pantone offset
Finish	Matt/gloss lamination, varnish, foil (optional)
Use	Turkish delight, confectionery, dried fruit, dates

Custom made

Offset Printed Pizza Box

Full-colour offset printed pizza boxes for restaurant chains and branded pizzerias. A heat-retaining corrugated structure, paper chosen for grease and moisture balance, and eye-catching print deliver a brand experience with every order.

Sizes	All standard diameters and custom
Print	Full-colour offset

Offset Printed Packaging

Custom made

Fresh Produce Branding

Offset printed crate sides, bands, headers and corner pieces for wooden and plastic crates put your brand on the market stall and the export pallet. Moisture-resistant coatings make them suitable for cold storage.

Items	Crate sides, bands, headers, corners
Coating	Moisture-resistant varnish / film

Custom made

Printed Fruit Punnet

Designed for strawberries, cherries, plums and similar fruit, our offset printed punnets protect the produce and make it attractive on the shelf. Made from chromo board with a gloss film inside and CMYK print.

Sample size	179 × 179 × 70 mm (other sizes available)
Material	350 g chromo board
Inner coating	Gloss film
Print	CMYK offset

Edge Protectors

Edge and corner protection for palletised loads.

Custom made

Paper Edge Protector

Paper edge protectors shield pallet edges from strapping and stretch-film pressure, increase stacking strength and keep the load together. They can also reinforce boxes internally and be printed with your logo or warnings.

Leg size	30×30 – 100×100 mm
Thickness	2 – 10 mm
Length	Up to 6000 mm
Print	Up to 4 colours
Options	Moisture-resistant (OPP), notched

Standard

Plastic Edge Protector

Plastic edge protectors prevent carton edges from being crushed by steel or PET strapping. Resistant to moisture and low temperatures, they are preferred for cold storage, food and fresh produce shipments.

Resistance	Moisture and cold storage
Use	Strapping, pallet edges

Labels

Labels for every surface and every condition.

Standard

Barcode Labels

Paper or synthetic barcode labels deliver sharp, readable prints on barcode printers. Produced in the size and material you need for product tracking, pricing and inventory management in warehouses, stores and production lines.

Material	Coated paper, thermal, PP
Printing	Thermal transfer / direct thermal

Standard

Eco Thermal Labels

Eco thermal labels print directly on thermal printers without a ribbon. The most economical choice for short-term uses such as shelf price labels, shipping and scale labels.

Printing	Direct thermal (no ribbon)
Use	Shipping, scales, price labels

Standard

Top-Coated Thermal Labels

With a protective top coat over the thermal layer, these labels resist light, moisture and abrasion, keeping them legible on long-shelf-life products and in logistics.

Printing	Direct thermal
Resistance	Light, moisture, abrasion

Standard

PP Thermal Labels

Polypropylene face stock with a thermal coating makes these labels water- and tear-resistant without needing a ribbon. Ideal for cold chain, meat and poultry and humid environments.

Material	Polypropylene + thermal coating
Use	Cold chain, humid conditions

Labels

Custom made

Opaque PP Labels

Opaque PP labels resist chemicals, moisture and tearing on cosmetic, chemical, cleaning and automotive products, while vivid printing gives your product a premium look.

Material	White opaque polypropylene
Use	Cosmetics, chemicals, cleaning, automotive

Custom made

Coated Paper Labels

Thanks to their glossy surface, coated paper labels show colours vividly and sharply. Produced in brand-specific sizes and designs for cosmetics, food, promotional and textile products; also suitable for ribbon printers.

Material	Coated (semi-gloss) paper
Printing	Press printed / thermal transfer

Custom made

Food Labels

Food labels clearly present mandatory information such as ingredients, nutrition facts, production and expiry dates. Available with adhesives suitable for plastic, metal, glass and paperboard packaging.

Material	Paper / opaque PP
Surfaces	Plastic, metal, glass, board

Custom made

Beverage Labels

We produce opaque or clear PP labels for water, juice, dairy and oil bottles. They keep their adhesion and print quality even in refrigerated conditions.

Material	Opaque PP / clear PP
Resistance	Water, moisture, cold

Labels

Standard

Deep-Freeze Thermal Labels

Developed for deep-freeze conditions, these double-protected thermal labels maintain adhesion and legibility between -18 °C and -30 °C. Suitable for frozen food, meat products and medical samples.

Temperature	-18 °C / -30 °C
Use	Frozen food, meat, medical samples

Standard

Labels on Rolls

We produce roll labels for barcode printers and automatic labellers in coated paper, eco thermal, top-coated thermal, PP and silver matt materials, with the core size and winding direction you need.

Material	Coated paper, eco thermal, top-coated thermal, PP, silver matt
Options	Custom core and winding direction

Packing Tape

Strong adhesion, secure closure.

Standard

Acrylic Packing Tape

Made with a strong PP carrier and acrylic adhesive, this tape bonds quickly and permanently even on plastic, nylon and stretch-film surfaces. Long-lasting and resistant to weather and UV.

Thickness	36 / 38 / 40 / 42 / 45 / 47 µ
Colour	Yellow, clear, orange, tan
Temperature	-20 °C – 80 °C
Sizes	45, 48, 50 mm; 50 m – 1000 m

Standard

Hot-Melt Packing Tape

Hot-melt adhesive tapes provide very strong initial tack, ideal for high-volume shipping, e-commerce and packing lines. Can be custom printed with your logo and handling messages.

Thickness	36 / 38 / 40 / 42 / 45 / 47 µ
Colour	Clear (printed option)
Temperature	-20 °C – 60 °C

Packing Tape

Standard

King Tape (Heavy Duty)

King tape is a professional heavy-duty tape with high holding power that stops heavy and bulky cartons from opening, an economical alternative to natural rubber and solvent-based tapes.

Thickness	45 µ
Colour	Clear
Temperature	-20 °C – 60 °C

Auxiliary Packaging

Tissue paper, metallized board and net packaging.

Standard

Tissue (Glassine) Paper

Made from fine cellulose, tissue paper is used for wrapping fruit and vegetables, protecting glass and metal items, and in chocolate boxes and textiles. Its pH-balanced structure is safe for the product and it can be printed with your logo.

Use	Fruit wrapping, glass, jewellery, textiles
Print	Single or multi-colour (optional)

Standard

Metallized Board

Metallized board is rigid board laminated with a glossy gold or silver metallized surface. It is used for cake and dessert bases, bakery and fish packaging, and luxury and gift boxes. It is supplied as sheets or cut to size as round and rectangular bases.

Colour	Gold, silver
Form	Sheet, round / rectangular base
Use	Cake bases, bakery, fish, luxury boxes

Auxiliary Packaging

Standard

Crate Cover Net

With its vertical mesh structure, the banded crate net stretches in one direction, securing crates and preventing products from shifting or falling during transport, while allowing airflow and keeping products visible.

Structure	3-thread, one-way stretch
Use	Fruit and vegetable crates

Standard

Mesh Bags

Mesh bags let onions, potatoes, citrus, garlic and nuts be packed in a breathable, visible way. Available in various colours and sizes with label band or clip closures.

Use	Vegetables, fruit, citrus, nuts
Options	Colour, size, label band

CUSTOM MADE

Oil bottles: PET, glass and tin

Bottles and tins from 250 ml to 5 litres for olive oil, sunflower oil and speciality oil producers. Supplied with caps, labels and cartons from a single source, ready for your filling line.

PET oil bottles

Light, unbreakable and economical PET bottles — the most common choice for sunflower, corn and canola oil. Clear or green-tinted bodies, with handles on larger sizes.

AVAILABLE SIZES

1 L 2 L 3 L 4 L 5 L

- Food-grade PET resin
- Clear and tinted body options
- Carry handle on 2 L and above
- Screw cap with tamper-evident ring
- Compatible with automatic filling lines

Glass oil bottles (Dorica / Marasca)

Dark green and amber glass bottles that protect premium olive oil and cold-pressed oils from light. Dorica (round) and Marasca (square) shapes for an elegant shelf presence.

AVAILABLE SIZES

250 ml 500 ml 750 ml 1 L

- Dark green, amber and flint glass
- Dorica and Marasca shapes
- Pourer, locking and aluminium caps
- Gift boxes and partitioned cartons
- Light protection, long shelf life

Tin oil cans

Tin cans give olive oil and bulk oil the best protection against light and oxygen. Plain or lithographically printed with your brand, with handles and safety spouts.

AVAILABLE SIZES

500 ml 1 L 2 L 4 L 5 L

- Complete protection from light and oxygen
- Plain or custom lithographic print
- Carry handle on 5 L tins
- Plastic tamper-evident spout
- Robust construction suitable for export

What to know when choosing the right box

Let's find the best packaging for your product together. Flute type, box style and print method directly affect both protection and cost.

Corrugated board flute types

FLUTE	THICKNESS	KEY PROPERTY	TYPICAL USE
E flute	≈ 1.0 – 1.8 mm	Best print surface, lightweight	Pizza, food and offset printed boxes
B flute	≈ 2.2 – 3.0 mm	Good crush resistance and print	Cans, bottles, general shipping boxes
C flute	≈ 3.2 – 4.0 mm	High stacking and impact strength	Bulky products, trays
EB (double wall)	≈ 3.2 – 4.5 mm	Strong yet printable	Delicate and fragile products
BC (double wall)	≈ 5.5 – 6.5 mm	Highest strength	Heavy loads, export cartons

Common box styles

Regular slotted carton (FEFCO 0201)

All flaps the same length; the most economical and common shipping box.

Full overlap carton (FEFCO 0203)

Outer flaps fully overlap; resists crushing and heavy loads.

Crash-lock bottom box

Erects and locks without tape; ideal for retail and consumer packaging.

Telescope box (lid + base)

Two-piece design for gifts, textiles and high stacking loads.

E-commerce / mailer box

Self-locking shipping box with a premium unboxing experience.

Tray

Open-top tray for bottles, jars and fruit; suitable for automatic lines.

Printing methods

Flexo printing

Direct printing on corrugated board with plates and water-based inks. Fast and economical for 1–4 colour logos and information.

Offset printing

Photo-quality CMYK and Pantone printing on board, laminated to corrugated. Makes a difference on the shelf.

Finishing

Gloss/matt lamination, UV varnish, embossing and foil for a premium look and extra moisture protection.

Packaging tailored to every industry

Transport, hygiene, strength and shelf presentation needs differ in every industry. We select and customise our products accordingly.

Food

Food labels, deep-freeze labels, partitioned cartons

Fresh Produce

Produce trays, printed crate items, fruit punnets, nets

Fast Food

Pizza boxes, burger and takeaway boxes

Edible Oil Producers

PET, glass and tin bottles, labels, cartons

Industry

Shipping boxes, edge protectors, pallet caps, tape

Chemicals & Cleaning

Opaque PP labels, strong double-wall boxes

Cosmetics

Paper and PP labels, cell trays, die-cut boxes

Textiles & E-commerce

Shipping boxes, mailer boxes, labels, tape

WHY TAÇPACK?

A partner you can trust with your packaging

01

All under one roof

Boxes, labels, tape, edge protectors and bottles — one supplier, less time and cost.

02

Made for you

Size, grade, cut and print tailored to your product and brand.

03

FSC® certified

Responsibly sourced materials — an advantage in export and corporate supply.

04

On-time delivery

Planned production and reliable logistics you can count on.

05

Expert advice

We help you choose the right flute, box style and print.

06

Fast quotes

Same-day reply to requests sent via WhatsApp or the form.
